san Jose, Cai., Aug. 2.—The three prisoners arrested last evening for the murder of George W. Schofield remain in the county jail, while the officers are working on the ense. No direct evidence has been found, but the officers say that they have a strong circumstantial case. Mrs. Schofield takes her arrest calmly and does not appear to worry in the least over the fact that she is a widow. On Saturday she stated positively that her husband expressed no opinion after the afair of Friday night as to who fired the shot. When asked this morning, "Did your husband any anything on Friday night after the shooting which would indicate that he had any suspicion?" she ansewered. "Yes, he' said that Budd Mann did that. I will get even with him."

Mann is her divorced husband. She says she is a much smaller man than he whom she saw run away.

Saturday alse sald she suspected her son-in-law, Clark Johnson. Mrs. Schofield was here Thursday with Johnson and his wife. Johnson had not returned this morning to San Jose, though the officers believe he will show up all right.

A few minutes faier he saw Figel and Hoffman meet and enter the office together. When next he passed the front of the store he noticed that there was something amiss with the iron doors, and, entering, found Hoffman in a dying condition on the floor of his office.

Trouble seems to be brewing in the Ogden band. The matter began over the contract for the music for the excursion of the secret orders to Garfield on Thursday. The band put in a bid to go down for \$1.59 per man. The orders had about decided not to take a band, when G. W. Pachard put in a bid for \$3 per man. He is not the leader of any organization, but the contract was closed with him for 12 men. He then engaged some members of the Ogden band to play with him, claiming that they did not understand their organization was bidding. Four of them refused to recede and this created some dissension at the practice last night. Leader Emmett tendered his resignation, which was not accepted, alcounty schools completed their labors yesterday, and mailed 48 certificates to successful applicants. The board con-sisted of Superintendent Mosiah Hall, Professor Charles Wright and Professor Professor Charles Wright and Professor Samuel Doxey. In a general way the certificates of the older teachers were higher than ever before, some of them reaching nearly to the 100 mark; while on the other hand the teachers with less experience fell below the average of such teachers. The examiners argue from this that experience is an excellent educator, and that the older teachers are studying systematically to keep abreast of the times. Some certificates were renewed, but for the most part the certificates were new ones. The following have certificates:
